

Here are 2 maps of the area covered by footpath 37.

I recommend using the OS OpenData Street View on the next page.

I have asked Richard Marsh of Essex County Council Legal services whether the OS OpenData Street View is acceptable for submitting with the evidence form but he has yet to reply.

The application guidelines give the contact as Lloyd Simpson (01245 430625). The document is out of date, Richard has taken over from Lloyd

You can contact Richard on 01245 506732 or richard.marsh@essex.gov.uk.

I have included the map on page 3 as this gives a clear indication of where the sea wall is and may be helpful in guiding you where to draw on the page 2 map.

It is important that you use a thin red pen to mark the route you walked, if you don't do this ECC will reject your evidence form.

If possible please take a copy of your evidence form and map before you hand it in to FWTC.
